About Us :

- **LIBO** Technical services is an independent private company, based in Tripoli – Libya established in 1996, with inspection being the main activity of the company.
- Company reorganized in 2005 in order to meet the new evaluations and to extend its activities to provide and cover a wide range of technical services in several engineering and industrial activities in the Oil, Gas & Power companies, observing internationally approved standards & techniques, using experience technical staff with related international approved certificates and skills in execution of projects and duties.

Vision & Mission :

- Our mission is to provide superior and comprehensive engineering solutions to customers. And to maintain a leading position as the client preferred contractor, capable of meeting the diversified needs of its clients in the Engineering, Procurement, Construction and Maintenance services while maintaining high standards in Health, Safety, Environment and Quality towards our employees, customers, and community.
- Our vision is to be a recognized performance leader in engineering solutions. Our key points:
 - To be a valued and respected partner.
 - To be a preferred services provider.
 - To be innovative and cost-effective.
 - To be a preferred employer.

Values Quality Managments

- We are committed to adopting modern practices in managing our daily operations and maintaining a climate of quality awareness that will lead to continuous improvement in the quality of our services to reach customer satisfaction, taking in consideration the protection of the environment and health, Safety regulations.
- Our success in these areas comes from a systematic approach to quality management aimed at ensuring that the customer's requirements are always understood and met.

Projects & Experience .

- To check the projects & experience, check the appendixes.

Enhancement Activities.

- **LIBO** Technical Services headquarter : –

LIBO Technical Services is in the process of constructing a new 5000 m2 headquarter complex consisting of Main office, Training center, Workshop, Storage facilities, and Guesthouse. Estimated completion time in August 2019.

- Training programs: –

LIBO Technical Services is committed to maintaining the total confidence of its customers, therefore, one of the company business objectives is to ensure compliance with local, national and international laws and the accuracy and validity of reports and certificates that it provides to customers. Therefore, we adopted a training program for our staff, in order to improve and validate their certification scheme.
